

Helping you manage all the moving pieces

Our new Medication Synchronization program (Med Sync) makes getting all your medicines easier — at no extra cost to you.

Med Sync helps align your refill schedules so you can pick up most of your medicines on one day each month.

Our Med Sync program can help you:

- Cut down on trips to the pharmacy
- Make sure you have your medicines when you need them
- Work with your pharmacist so you can stick to a medicine routine

Get started with Med Sync today!

Talk to your pharmacist about coordinating your prescriptions to get started.

Have more questions about Med Sync? Call 1-800-600-4441 (TTY 711).
